We Make Workspace Recycling

- Easier
- Engaging
- Efficient
- Eco Friendly

We Help You To

- Drive Behavioural Change
- Increase Recycling
- Reduce Carbon Footprint
- Elevate Your Brand

Don't Just Take Our Word For It

"Our general waste has reduced by 52%.
The ease of separation is helping staff dispose
of waste without contaminating it."

"We reduced our recyclables contamination rate from
85% to just 7% within several months after implementing
Unisort Aspire recycling stations."

Sustainable Bamboo Worktops

- Growing bamboo uses 1/3 of the water consumption than growing oak
- Bamboo is one of the fastest growing land plants in the world
- Bamboo fiber is 2 to 3 times stronger than timber.
- Virtually, every part of the bamboo plant can be used with very low waste from production waste
- Bamboo releases 35% more oxygen than hardwood forests
- Bamboo is naturally anti-bacterial, anti-fungal and easy to clean.

Standard bags that are 1/3 full **wastes plastic & creates unnecessary CO₂**

By design, **standard bags are wasteful** due to overhang on the bins and scheduled emptying regardless of the fill level.

Unisort® Liner System

reduces plastic usage and
CO₂ attributed to waste
bags by 80%

Only cut the bag length required to hold the waste instead of removing a whole bag.

A cleaner, quicker and greener way to
reduce CO₂.

Features & Accessories

Base Unit

Pull-to-door with Lockable version available.

70L capacity

Unisort Liner System Compatible

Reduce your plastic use by up to 80% and decrease your CO₂ emissions by using our Liner System instead of 'standard' bags.

Castors

Quick & easy repositioning with no damage to floor finishes. Lockable.

Liner Tray

Optional liner tray available to prevent damage to base.

Waste Stream Apertures

Specific shape apertures make correct waste stream separation easy.

5 options

Recycling Engagement Training Sessions

The purpose of our training sessions is to empower employees and management alike with the knowledge, tools, and motivation necessary to elevate recycling efforts within their organisation.

The sessions will educate your team why recycling is important in the workplace and help to clarify local and regional recycling laws.

Used Bin Takeback & Recycling

We are committed to sustainability and environmental responsibility. As part of our ongoing efforts to minimize waste and promote recycling, we offer all our UK clients a Used Bin Takeback & Recycling Service.

This takeback service is designed to facilitate the recycling of old waste bins from our customers when we deliver their new recycling stations.
