We Make Workspace Recycling

- Easier
- Engaging
- Efficient
- Eco Friendly

We Help You To

- Drive Behavioural Change
- Increase Recycling
- Reduce Carbon Footprint
- Elevate Your Brand

Don't Just Take Our Word For It

"The feedback has been overwhelmingly positive. Staff particularly praised the clear signage and highlighted the modern, professional look of the Climate recycling stations."

"Our general waste has reduced by 52%. The ease of separation is helping staff dispose of waste without contaminating it."

"We reduced our recyclables contamination rate from 85% to just 7% within several months after implementing Unisort Aspire recycling stations."

Judge Us By The Company We Keep

Why Unisort?

Our Proven Methodology

Stream Your Recycling; Reduce Your Landfill; Minimise Your CO₂ Emissions

Unisort Climate has a range of 15 interchangeable Waste Stream Apertures that make contamination free recycling straightforward and easy.

From a soft close microbial food waste cover to a lockable confidential paper X Slot, all colour coded and snap fit.

Remove The Two Second Pause

Engage and communicate clearly with colour coded waste stream signage and apertures to remove the '2-second pause' and reduce the risk of contaminated waste.

Specific shape apertures make correct separation of waste items easy & intuitive.

Standard bags that are 1/3 full **wastes plastic & creates unnecessary CO₂**

By design, **standard bags are wasteful** due to overhang on the bins and scheduled emptying regardless of the fill level.

Unisort® Liner System

reduces plastic usage and CO₂ attributed to waste bags by 80%

Only cut the bag length required to hold the waste disposed of, instead of removing a whole bag.

A cleaner, quicker and greener way to reduce CO₂.

① Remove Inner Liner Holder

② Cable Tie Twice & Cut. Simply pull new liner through

③ Always 100% full and no wasted plastic

Features & Accessories

Base Unit
Standard or optional
Lockable Security Base.
80L capacity

Waste Stream Apertures
Colour coded snap fit interchangeable
Waste Stream Apertures.
15 options

Unisort Liner System Compatible
Reduce your plastic use by up to 80% and
decrease your CO₂ emissions by using our
Liner System instead of 'standard' bags.

Unisort Liner System Accessories
Integrated Unisort Liner Safety Cutter
& Liner Accessories Holder.

Waste Stream Cover, Backboard Signage & Front Base Signage
Adhesive backed cover decals plus optional removable backboard
panels made from recycled PP. Several graphic design options.
Customisation available.

Handle
Integrated, ergonomic hand
grip for easy handling.

Vented Base & 3L Sump
Quick & easy bag removal with
unique air flow design. Sump safely
contains any liquid leaks from bags.

Connector
Connect your stations for secure and
space saving positioning. Keep all waste
streams to hand in one place.

Capacity Limiter
Reduces the capacity to 15L to
prevent splitting liners due to
heavier food waste.

Unisort® Climate®
Flexible, customisable
and easy to use

Unisort® Climate®

Front Base Signage

Invite your team to embrace recycling and spark positive change!

Use our base graphics to encourage sustainable habits or promote your brand's commitment to sustainability.

Recycling Engagement Training Sessions

The purpose of our training sessions is to empower employees and management alike with the knowledge, tools, and motivation necessary to elevate recycling efforts within their organisation.

The sessions will educate your team why recycling is important in the workplace and help to clarify local and regional recycling laws.

Used Bin Takeback & Recycling

We are committed to sustainability and environmental responsibility. As part of our ongoing efforts to minimize waste and promote recycling, we offer all our UK clients a Used Bin Takeback & Recycling Service.

This takeback service is designed to facilitate the recycling of old waste bins from our customers when we deliver their new recycling stations.
