# Sustainable Bamboo Worktops

Elevate your space with a worktop crafted from fast-growing bamboo, combining durability and sustainability.

## Lacquered Bamboo

12mm thickness.

Growing bamboo uses 1/3 of the water consumption than growing oak.

Bamboo is one of the fastest growing land plants in the world.

Bamboo fiber is 2 to 3 times stronger than timber.

Virtually, every part of the bamboo plant can be used with very low waste from product waste.

Bamboo releases 35% more oxygen than hardwood forests.

Bamboo is naturally anti-bacterial, anti-fungal and easy to clean.

# Recycling Engagement Training Sessions

The purpose of our training sessions is to empower employees and management alike with the knowledge, tools, and motivation necessary to elevate recycling efforts within their organisation.

The sessions will educate your team why recycling is important in the workplace and help to clarify local and regional recycling laws.

# Used Bin Takeback & Recycling

We are committed to sustainability and environmental responsibility. As part of our ongoing efforts to minimize waste and promote recycling, we offer all our UK clients a Used Bin Takeback & Recycling Service.

This takeback service is designed to facilitate the recycling of old waste bins from our customers when we deliver their new recycling stations.
